

News Release

FOR IMMEDIATE RELEASE:

Home sales continue at below average pace

VANCOUVER, B.C. – March 4, 2013 – Home sale activity has trended below historical averages for a full year in the Greater Vancouver housing market.

The Real Estate Board of Greater Vancouver (REBGV) reports that residential property sales in Greater Vancouver reached 1,797 on the Multiple Listing Service® (MLS®) in February 2013. This represents a 29.4 per cent decrease compared to the 2,545 sales recorded in February 2012, and a 33 per cent increase compared to the 1,351 sales in January 2012.

Last month's sales were the second lowest February total in the region since 2001 and 30.9 per cent below the 10-year sales average for the month.

"Sales in February followed recent trends and were below seasonal averages, though our members tell us they saw more traffic at open houses last month compared to the previous six to eight months, said Eugen Klein, REBGV president.

The sales-to-active-listings ratio currently sits at 12.2 per cent in Greater Vancouver, a two per cent increase from last month. This is the first time this ratio has been above 11 per cent since June 2012.

"With a two-point increase in our sales to active listings ratio and a reduction in the average number of days it's taking to sell a home, February showed some subtle indications of a changing sentiment in the marketplace compared to recent months," Klein said.

New listings for detached, attached and apartment properties in Greater Vancouver totalled 4,833 in February. This represents a 13 per cent decline compared to the 5,552 new listings reported in February 2012 and a 5.8 per cent decline from the 5,128 new listings in January. Last month's new listing count was 4 per cent higher than the region's 10-year new listing average for the month.

The total number of properties currently listed for sale on the Greater Vancouver MLS® is 14,789, a 5.2 per cent increase compared to February 2012 and an 11.6 per cent increase compared to January 2013.

Since reaching a peak in May of \$625,100, the MLS® Home Price Index composite benchmark price for all residential properties in Greater Vancouver has declined 5.6 per cent to \$590,400. This represents a 3.3 per cent decline compared to this time last year.

Sales of detached properties in February 2013 reached 704, a decrease of 36.1 per cent from the 1,101 detached sales recorded in February 2012, and a 49.8 per cent decrease from the 1,402 units sold in February 2011. The benchmark price for detached properties decreased 4.5 per cent from February 2012 to \$901,500. Since reaching a peak in May 2012, the benchmark price of a detached property has declined 6.8 per cent.

Sales of apartment properties reached 760 in February 2013, a decline of 25.5 per cent compared to the 1,020 sales in February 2012, and a decrease of 37 per cent compared to the 1,206 sales in February 2011. The benchmark price of an apartment property decreased 3 per cent from February 2012 to \$360,400. Since reaching a peak in May 2012, the benchmark price of an apartment property has declined 5.1 per cent.

Attached property sales in February 2013 totalled 333, a decline of 21.5 per cent compared to the 424 sales in February 2012, and a 31.9 per cent decrease from the 489 attached properties sold in February 2011. The benchmark price of an attached unit decreased 0.7 per cent between February 2012 and 2013 to \$455,500. Since reaching a peak in April 2012, the benchmark price of an attached property has declined 6.5 per cent.

-30-

The real estate industry is a key economic driver in British Columbia. In 2012, 25,032 homes changed ownership in the Board's area generating \$1.07 billion in economic spin-off activity and creating an estimated 7,125 jobs. The total dollar value of residential sales transacted throughout the MLS® system in Greater Vancouver totalled \$18.6 billion in 2012. The Real Estate Board of Greater Vancouver is an association representing more than 11,000 REALTORS® and their companies. The Board provides a variety of member services, including the Multiple Listing Service®. For more information on real estate, statistics, and buying or selling a home, contact a local REALTOR® or visit www.rebgv.org.

HOW TO READ THE TABLE:

• Benchmark Price: Estimated sale price of a benchmark property. Benchmarks represent a typical property within each market.

• Price Index: Index numbers estimate the percentage change in price on typical and constant quality properties over time. All figures are based on past sales.

• x Month/Year Change %: Percentage change of index over a period of x month(s)/year(s)

In January 2005, the indexes are set to 100.

Townhome properties are similar to Attached properties, a category that was used in the previous MLSLink HPI, but do not include duplexes.

The above info is deemed reliable, but is not guaranteed. All dollar amounts in CDN.
