FOR IMMEDIATE RELEASE

## Greater Vancouver housing market hits summer lull

**VANCOUVER, B.C. – August 2, 2012** – Residential property sales in Greater Vancouver remained at a 10-year low in July, while the number of properties being listed for sale continued to edge down and prices remained relatively stable.

The Real Estate Board of Greater Vancouver (REBGV) reports that there were 2,098 residential property sales of detached, attached and apartment properties in July. That's an 18.4 per cent decline compared to the 2,571 sales in July 2011 and an 11.2 per cent decline compared to the previous month's 2,362 sales. July sales were the lowest total for that month in the region since 2000. They were 31.2 per cent below the 10-year July sales average of 3,051.

"People appear to be cautious about making significant financial decisions right now. While our local economy appears to be quite robust, there may be some concern about the impact of international markets and the federal government's tightening of mortgage regulations," says Eugen Klein, REBGV president.

New listings for detached, attached and apartment properties in Greater Vancouver totalled 4,802 in July, the lowest number of new listings for any month this year. This represents a 5.8 per cent decline compared to July 2011 when 5,097 properties were newly listed for sale on the Multiple Listing Service® (MLS®) and a 14.5 per cent decline compared to the 5,617 new listings reported in June 2012.

At 18,081, the total number of active residential property listings on the MLS® increased 18.8 per cent from this time last year and decreased 2.2 per cent compared to the previous month.

"With a sales-to-actives-listing ratio of 11.6 per cent, conditions have favoured buyers in our marketplace in recent months," Klein said. "That means buyers have more selection to choose from and more time to make a decision. For sellers, it's important to price properties competitively. For information on local market prices, contact your REALTOR®."

The MLS® Home Price Index (MLS® HPI) composite benchmark price for all residential properties in Greater Vancouver over the last 12 months has increased 0.6% to \$616,000 and declined 0.7% compared to last month.

Sales of detached properties on the MLS® in July 2012 reached 787, a decrease of 28.4 per cent from the 1,099 detached sales recorded in July 2011, and a 13.3 per cent decrease from the 908 units sold in July 2010. The benchmark price for detached properties increased 1.4 per cent from July 2011 to \$950,200 and declined 1.2 per cent compared to last month.

Sales of apartment properties reached 927 in July 2012, a 10.9 per cent decrease compared to the 1,040 sales in July 2011, and a decrease of 5.3 per cent compared to the 979 sales in July 2010. The benchmark price of an apartment property remains unchanged compared to July 2011 at \$374,300 and declined 0.5 per cent compared to last month.

Attached property sales in July 2012 totalled 384, an 11.1 per cent decrease compared to the 432 sales in July 2011, and a 4.3 per cent increase from the 368 attached properties sold in July 2010. The benchmark price of an attached unit decreased 0.5 per cent between July 2011 and 2012 to \$468,700 and is relatively unchanged compared to last month.

-30-

The real estate industry is a key economic driver in British Columbia. In 2011, 32,390 homes changed ownership in the Board's area, generating \$1.36 billion in spin-off activity and 9,069 jobs. The total dollar value of residential sales transacted through the MLS® system in Greater Vancouver totalled \$25 billion in 2011. The Real Estate Board of Greater Vancouver is an association representing 11,000 REALTORS® and their companies. The Board provides a variety of member services, including the Multiple Listing Service®. For more information on real estate, statistics, and buying or selling a home, contact a local REALTOR® or visit [www.rebgv.org](http://www.rebgv.org).

**HOW TO READ THE TABLE:**

- Benchmark Price: Estimated sale price of a benchmark property. Benchmarks represent a typical property within each market.
- Price Index: Index numbers estimate the percentage change in price on typical and constant quality properties over time. All figures are based on past sales.
- x Month/Year Change %: Percentage change of index over a period of x month(s)/year(s)  
In January 2005, the indexes are set to 100.
- Townhome properties are similar to Attached properties, a category that was used in the previous MLSLink HPI, but do not include duplexes.
- The above info is deemed reliable, but is not guaranteed. All dollar amounts in CDN.
