

FOR IMMEDIATE RELEASE

Home listings rise to start the spring season

VANCOUVER, B.C. – April 6, 2010 – A steady influx of new listings has helped create a balanced ‘typical spring’ housing market in the Greater Vancouver region.

The Real Estate Board of Greater Vancouver (REBGV) reports that new listings for detached, attached and apartment properties in Greater Vancouver totalled 7,004 in March 2010. This represents a 60 per cent increase compared to March 2009 when 4,385 new units were listed, and a 52.1 per cent increase compared to February 2010 when 4,606 properties were listed on the Multiple Listing Service® (MLS®).

At 13,538, the total number of property listings on the Multiple Listing Service (MLS®) increased 19 per cent in March compared to last month, but remains 7.6 per cent below this time last year.

“The total number of homes listed for sale on our MLS® is at its highest level in 10 months, which translates into more options and variety for those looking to buy during the traditionally busy spring period,” Jake Moldowan, REBGV president said.

Residential property sales in Greater Vancouver reached 3,137 in March 2010, a 38.5 per cent increase compared to March 2009, a 4.7 per cent increase over March 2008, and a 12.4 per cent decrease compared to March 2007. The current figure also represents a 26.8 per cent increase compared to the 2,473 sales recorded in February 2010.

“With a sales-to-listing ratio of 23 per cent, we see a healthy balance between buyer demand and seller supply in the marketplace,” Moldowan said.

Over the last 12 months, the MLSLink® Housing Price Index (HPI) benchmark price for all residential properties in Greater Vancouver increased 20.3 per cent to \$584,435 from \$485,845 in March 2009. This price is 2.8 per cent above the previous high point in the market in May 2008 when the residential benchmark price sat at \$568,411.

Sales of detached properties in March 2010 reached 1,336, an increase of 49 per cent from the 897 detached sales recorded in March 2009 and a 19.7 per cent increase from the 1,116 units sold in March 2008. The benchmark price for detached properties increased 23.3 per cent from March 2009 to \$800,341, but declined 0.6 per cent compared to last month when the benchmark price was \$800,796.

Sales of apartment properties in March 2010 reached 1,252, an increase of 28.3 per cent compared to the 976 sales in March 2009 and a decline of 8.6 per cent compared to the 1,370 sales in March 2008. The benchmark price of an apartment property increased 17.3 per cent from March 2009 to \$395,507 and is up 1.2 per cent compared to last month when the benchmark price was \$390,899.

Attached property sales in March 2010 totalled 549, an increase of 40.1 per cent compared to the 392 sales in March 2009 and a 7.4 per cent increase from the 511 attached properties sold in March 2008. The benchmark price of an attached unit increased 17.3 per cent between March 2009 and 2010 to \$493,263, but declined 0.5 per cent compared to last month when the benchmark price was \$495,496.

HOW TO READ THE TABLE:

BENCHMARK PRICE: Estimated sale price of a benchmark property. Benchmarks represent a typical property within each market.

PRICE RANGE: Expressed as a + or - percentage of the benchmark price, there is a 90% probability the sale price of a benchmark house is within the interval.

PRICE INDEX: Index numbers estimate the percentage change in price on typical and constant quality properties over time. All figures are based on past sales.

In Year 2001, the indexes are averaged to 100

Key: * = Sales sample too small; Price information not reported.

MLS® Housing Price Index - Greater Vancouver 10 Year Trend

Year 2001 average = 100
